September 2007 Program Meeting

Crisis Response Planning

Jewish Community Campus

5801 W. 115th St., Overland Park, KS

11:30 a.m.—1:00 p.m.

Meeting Objective:

To manage your company's risks and to be ready to respond effectively and efficiently when a crisis occurs.

DEFINING CRISIS

A CRISIS is a situation that seriously and immediately threatens one or more of an organization's vital assets: life, property, operations/income, and reputation.

CRISES are characteristically uncommon, unpredictable and sudden, demanding immediate responses in order to save lives, avert secondary damage and restore normal operations.

About our speaker, Alan Bram

First 20 years of Alan's career were spent in the Jewish Community Center field. He has experience in Water Safety, Boating Safety, Advanced First Aid, CPR and was a certified Emergency Medical Technician. He had no responsibility for company-wide emergency responses.

In 1987 Alan became Director of the Jewish Community Campus and though his title is Executive Director, his primary responsibility is Facility Management. He learned his trade through BOMI courses, joining IFMA, actively participating in both, and reading.

Reasons to Become Certified:

- Distinguish Yourself
- Invest in Your Future
- Demonstrate Your Leadership & Initiative
- Advance Your Profession
- Enhance Your Professional Network
